

Once upon a time ... the story of a simple toolbox

We had, with Laurent, in 2002, the idea to create a simple polarimetric toolbox for our PhD students

Its name was already PolSARpro

We, then, decided to present this toolbox during the first edition of a conference which was promissing to be interesting ...

Once upon a time ... the story of a simple toolbox

The initiative development of *PolSARpro Software* became a direct result of the first *recommendations* made during the *POLinSAR 2003 Workshop*.

What a huge surprise ! ... You can't imagine ... even today !

A wonderful adventure of 22 years...

ASAP IS BORN

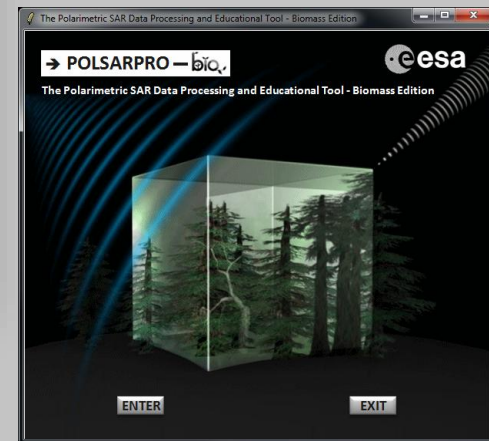

2003

2005

2009

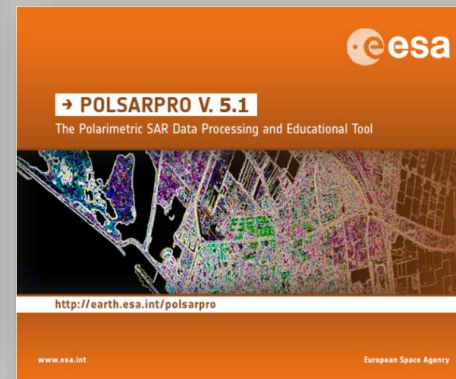

2019 - 2025

2004

2007

2013 (5.0) to 2018 (5.2)

PolSARpro-Bio software

Technical specifications

Graphical User Interface (GUI)

- **329** widgets written in *Tcl-Tk* ©
- **593996** lines of *Tcl-Tk* ©

Processing routines

- **853** routines written in *#C ANSI*
- **424558** lines of *#C ANSI*

Since 01/04/2019 :

- **180488** visits
- **Downloads**
 - **17696** win64 version
 - **2345** linux version

To conclude...

*My heartfelt, my sincere and
warmest thanks to ESA and to our
International Polarimetric Community
for this wonderful adventure ...*

Many thanks to you ...
